VOLUME I

INDEX OF SUBJECTS AND AUTHORS

Only main topics are listed, and reference is given to the first page of each paper in which they are discussed

Alkylating agents, mutagenic effects, 332
Amphorophora, resistance in raspberry, 319
Antigenic polymorphism, *Paramecium*, 62
Aphid resistance, genetic, in raspberry, 319
Aspergillus nidulans
  cytology, 462
  localized negative interference in, 1
Auerbach, C., 332

Barnett, S. A., 25
Bateman, A. J., 381
Bateman, N., 214, 226
Beale, G. H., 62
Beatty, R. A., 39
Berry, R. J., 439
Blyth, J. S. S., 408
Bowman, J. C., 262
Briggs, J. B., 319

Canalizing selection, *Drosophila* mutants, 140
Carcinogens, mutagenic action in *Drosophila*, 173
Carter, T. C., 59, 351
Chiasma frequency, mouse, 477
Chromosome
  interference, localized negative, 1, 487
  pairing, 1, 487
  unbalanced constitutions, mouse, 253
Clarke, J. M., 375
Cock, A. G., 275
Cohen, B. L., 431
Coleman, E. M., 25
Coprinus lagopus
  heterokaryon formation, 114
  nuclear migration, 129
Correlated response to selection, growth in mouse, 91
Correlations, parent : offspring in inbred lines, 50
Cytogenetic analysis, carcinogens in *Drosophila*, 173
Cytology, *Aspergillus nidulans*, 462

Day, P. R., 114, 129
Deol, M. S., 50
Development
  of 'Pintail' in mouse, 439
  of 'syndactylism' in mouse, 196

Drosophila melanogaster
  asymmetry of chaeta number, 151
  canalizing selection, 140
  ecological genetics of growth, 288, 305, 333
  isoallele mutability, 452
  mutagenic action of carcinogens, 173
  white eye loci, 452
Drosophila subobscura, maternal effects on egg development, 375

Ecological genetics, growth in *Drosophila*, 288, 305, 333
Edwards, R. G., 393
Egg production, line crosses in fowl, 408
Elliot, C. G., 462
Enhancement effect, 39
Environment
  aseptic synthetic diets for *Drosophila*, 288, 305, 333
  mouse performance in cold, 25
  mutants at two temperatures, *Drosophila*, 140
  number of chaetae on two media, *Drosophila*, 151
  selection under high and low nutrition, mouse, 91

Fahmy, O. G., 173
Fahmy, M. J., 173
Falconer, D. S., 91, 262, 422
Fertility
  analysis of, in selected strains of mice, 393
  effect of inbreeding on, mouse, 239, 262, 422
Fertilization, selective, in mouse, 214, 226
Fowl
  egg production in line crosses, 408
  genetic chimaera, 275
  sexual maturity in line crosses, 408
Fowler, R. E., 393

Gametogenesis in mouse, 477
Gene recombination models, 1, 487
Genetic chimaera in fowl, 275
Genetic defect, polygenic, inner ear of mouse, 189

Genetic parameters
chaeta number in *Drosophila*, 151
growth in *Drosophila*, 305
growth in mouse, 91
Green, M. M., 452
Growth, mice at different temperatures, 25
Grüneberg, H., 50, 69, 196

Heterokaryon formation in *Coprinus*, 114
Heterosis
egg development in *Drosophila*, 375
egg production in fowl, 408
heterokaryon in *Neurospora*, 356
in cold environment, mouse, 25
litter size in mice, 239, 262
sexual maturity in fowl, 408
Heterospermic insemination in rabbit, 39
Hybrid uniformity, egg development in *Drosophila*, 375

Inbred strains, purity of, mouse, 50
Inbreeding, effect on mouse fertility, 239, 262, 422
Interaction
between genes in mouse, 69, 439
gene-environment in *Drosophila*, 208, 305, 333
Isoalleles, mutability of wild-type, *Drosophila*, 452

Keep, E., 319
Knight, R. L., 319

Linkage in mouse, 69
Litter size in inbred and F1 mice, 239, 262, 422
Lyon, M. F., 189, 351

Maguire, M. P., 487
Maternal effects, egg development in *Drosophila*, 375
Maynard Smith, J., 375
McLaren, A., 253
Mongolism in man, possible cause, 477
Mosaic in fowl, 275
Mouse
analysis of fertility of selected strains, 393
close linkage, 69
development
of 'Pintail', 439
of 'syndactylism', 196
foetal mortality, 422
frequency of lethal gene (t^s), 214
gametogenesis, 477
genetic defect of ear, 189
genetics of plasma proteins, 431
induced mutation, 59, 381
litter size in inbreds and F1's, 239, 262, 422
Mouse, mutants
'Patch', dominant spotting, 69
'Pintail', dominant skeletal, 439
'syndactylism', recessive digit fusion, 196
'tailless' (t^s), recessive, 214
ovulation rate, 422
performance in cold environment, 25
purity of inbred strains, 50
reproductive physiology, 393
selection for growth, 91
selective fertilization, 214, 226
sensitivity to X-rays of foetal gonads, 351
unbalanced sex-chromosome constitutions, 253
Mutant
'Patch', dominant spotting in mouse, 69
'Pintail', dominant skeletal in mouse, 439
'syndactylism', recessive digit fusion in mouse, 196
'tailless' (t^s), recessive in mouse, 214
Mutation
effects of alkylating agents, 332
forward and back, in *Neurospora*, 356
induced dominant lethals in rodents, 381
induced in foetal mouse, 59, 351
of wild-type isoalleles in *Drosophila*, 452

Neurospora
arginine dependence, 356
forward and back mutation, 356
pyr 3 region, 356
Non-disjunction
possible mechanism, 477
of sex-chromosomes in mouse, 253
Nucleus, migration in *Coprinus*, 129

Paramecium aurelia, antigenic polymorphism, 62
Phillips, R. J. S., 351
Plasma proteins in mouse, 431
Polymorphism
antigenic in *Paramecium*, 62
plasma proteins in mouse, 431
Pringle, C. R., 62
Pritchard, R. H., 1
Pseudoalleles, interpretation of, 452

Rabbit, birth weight after heterospermic insemination, 39
Radiation
induced mutation in *Drosophila*, 452
induced mutation in mouse, 59, 351
Raspberry, resistance to aphid, 319
Rat, induced mutation, 381
Reeve, E. C. R., 151
Reissig, J. L., 356

Reproductive physiology of mouse, 393
Roberts, R. C., 239, 422
Robertson, F. W., 288, 305, 333

Sang, J. H., 408
Scaling problems in *Drosophila* chaeta numbers, 151
Searle, A. G., 50
Selection
  asymmetry of chaeta numbers in *Drosophila*, 151
  canalizing, of *Drosophila* mutants, 140
  effect on fertility in mouse, 393
  growth in *Drosophila* on synthetic media, 288, 305, 333
  growth in mouse, 91
Sexual dimorphism, mouse gametogenesis, 477
Slizynski, B. M., 477
Sternopleural chaeta, asymmetry of number in *Drosophila*, 151
Swiezynski, K. M., 114, 129

TEM, mutagenic action in rodents, 381
Travers, P., 375
Truslove, G. M., 50, 69
Tumor inhibitors, mutagenic action in *Drosophila*, 173

Waddington, C. H., 140
Weight, rabbit at birth, 39

Zigzag, inherited defect of ear in mouse, 189
